# Save Fuel. IDLERIGHT™ FUEL MANAGEMENT SYSTEM

Police / Emergency / Construction / Contractor  
Vehicle Idle Fuel Management System

Effective January 1, 2009 - Void May 31, 2009

## How to Order an *Idleright™* System

Every vehicle to be equipped with an Idleright™ Fuel Management System requires a Universal Idleright™ Control Module (IR-1000 Series.) In addition, some vehicles also require a vehicle-specific interface kit to allow the control module to communicate with the vehicle (IR-8000 Series.) See the tables below for appropriate modules for each specific vehicle.

WARNING: Each Idleright Interface Kit is flashed with the latest firmware when it leaves our factory, and the firmware flash date is marked on each package. The Interface Kit is guaranteed to work with any vehicle with a date of manufacture before the firmware flash date. If the vehicle manufacture date is after the flash date listed on the Interface Kit package, then the firmware must be updated prior to installation.
