

Wide Tunnel Plate

Sturdy mounting solution for consoles & accessories

Introducing the newly designed Wide Tunnel Plate

Havis has been known for their proven Tunnel Plate Mounting Systems which allow for endless possibilities in mounting consoles and accessories. Tunnel Plates provide a strong and stable platform for mounting accessories. Wide Tunnel Plate bases can be used alone to mount equipment or with a console to extend equipment mounting area and mount a mobile computer.

- Newly designed 8" wide tunnel plate provides improved stability when mounting equipment.
- Constructed of anodized extruded aluminum with black satin finish
- Full length slots for 1/4" hardware.
- Includes heavy duty steel vehicle mounting brackets and hardware
- Available in standard sizes of 12", 15", 18", 24", 28" and 32" in length. Vehicle specific kits include 28" extrusion.
- Backed by a lifetime warranty

The Havis Wide Tunnel Plates include vehicle specific mounting brackets.

The Havis Wide Tunnel Plates allow you to mount your equipment and accessories how you want.
