DOCKING STATION WITH CARD READER.
RH MOUNTING SHOWN/ RH MOUNTING
IS OPTIONAL.

INSTALLATION INSTRUCTIONS:

Note:
-Docking station depicted may not match Identically to product purchased. However, all Installation instructions are still applicable unless otherwise noted.

-Bracket can be mounted on either side of docking station.

-Bracket can be mounted on same side as LPS-204 (Accessory Power Supply Mounting Bracket - not shown).

1. Remove the (qty:2) screws that hold the mounting bracket to the GTC-600 Series Docking Station.

2. To install card reader bracket, position bracket as shown in image at left and align mounting holes (qty:2) with holes (qty:2) on side of docking station's mounting bracket.

3. Insert (qty:2) pan head, 1/4"-20 x 1/2" long, machine screws (Hardware Item #1) into holes and fasten card reader bracket & docking station mounting bracket to DS-GTC-600 Series docking station. Torque screws to 80 in.-lbs. with a #3 philips head driver.

4. Plug cabling (supplied with Magtek Card Reader) into card reader and position card reader such that cabling is directed towards the rear of the docking station.

5. Align card reader over card reader mounting bracket as shown. Using the indicated drive type/size, secure the card reader to the bracket with the two machine screws (supplied with the Magtek card reader) and torque to 8.0 in-lbs (0.9 Nm) +- 10%.

6. Plug the card reader cabling into the appropriate docking station port(s) and be sure to properly strain relieve the cables with supplied zip ties (Hardware Item #2).
