

INSTALLATION INSTRUCTIONS:

1. Verify that the power supply you received is compatible with the intended docking station/device to prevent accidental damage.
2. Power supply must be mounted to allow the power cables to be plugged into the docking station/device. Be certain to provide an adequate service loop so as not to restrict the intended full range of motion of your mounting device, or any installed accessories.
3. Note that the green indicator light on the power supply will illuminate when all connectors have been properly secured. For further Information refer to Lind documentation supplied with this product.

4. Panel Mounting Instructions:

1. Determine a suitable location to panel mount the main Power Supply. Reference the mounting hole pattern dimensions shown in Image 1.
2. Use Qty. 4 of the #10-16 x 3/4" long thread-forming fasteners to fasten the power supply to the desired panel mount location. TORQUE TO 14 IN-LBS.
3. Connect the Input and Output cables to the Power Supply and properly strain relieve both cables.
