MM-1000 SERIES

MODULAR MOUNT FOR NEW INSTALLATIONS

The challenge for retailers, warehouses and distribution centers when implementing technology is how to maximize limited space to mount that technology, while ensuring it is ergonomic and easy to use. Installed modular mounting solutions are regularly upgraded to utilize new technology, however the user often has no choice on where they can source this upgrade.

The exciting news is that the new MM-1000 Modular Mounting solution from Havis gives the user complete solution options to manage the space at their checkout or workstation and also to upgrade existing installations.

The MM-1000 Modular Mount incorporates a new generation of engineered materials for a durable and strong, yet modern looking POS solution. Designed to be great value, easy to order, install and upgrade.

KEY FEATURES

- Uses the latest Engineered Polyamide Alloy materials for durability and industry leading design for today's markets
- Innovative cable management that is an industry first to hide and protect cables
- Havis Pole allows for full range of device installation heights on all four sides
- Tool-less tilt tension adjustments on your Payment Terminal Mount

ACCESSORIES

Large Cable Bundle Cover Kit

This kit is ideal under All-In-One Monitors or for other applications where multiple large cables need to be routed down the Havis Pole. It includes enough cable covers to accommodate any Havis Pole and includes a custom base cover with a pass-through opening. This kit accommodates cable bundles up to 1" (25mm) in diameter.
