Installation Notes:

- Read all instructions before installing any Havis, Inc. products.
- Use hardware provided with install kit.

Vehicle Note:

For K9 applications, it is always recommended to order the Interceptor Utility with the OEM optional Aux Rear Air conditioning. (Ford option code 17A)

Remove rear passenger door panels first.

Behind the door open paddle handle and grab handle, remove plastic cover and 10mm head bolts. Remove two 7mm head fasteners from bottom of door.

Remove (2) plastic screw retainers from bottom of door. These will not be reused.

Note: Push in oval grommet with wire harness so K9 door panel lays more flat when screwed on. Make sure harness does not interfere with internal door parts.

Havis, Inc.
75 Jacksonville Road
Warminster, PA 18974
T 800-524-9900 F 215-957-0729
www.havis.com

Push large grommet with harness into door cavity to allow K9 door panel to lay closer against door.

Place K9 kit door panel onto door. The top will hook onto rubber molding. Position so it lines up with the two existing (protruding) bolts.

Drill mounting holes with 1/8" drill bit. Attach door panels with supplied #10 x 1/2" Phillips pan head sheet metal screws. Check remote door unlock feature before closing door.

NOTE: Window guards are shipped flat. On the edge of a work bench, bend a contour in the middle of the guard so it will fit tight against the window frame.

Position window guard with hinge assembly inside window frame and attach hinge to door panel prepunched holes with supplied # 10 x

With upper mount bracket attached to window guard, mark mounting hole locations in upper door / window frame.

Drill 5/32 holes.

Attach upper mount bracket with supplied #10 x 1/2 Phillips flat head sheet metal screws.

Remove back seats and set aside.

Hardware will be reused.

Note: The driver side rear seat will be will also be reused / reinstalled.

The seat belts on the back seats have sensors built into them that will turn on an indicator on the dash. They will need to be removed from the two (2) unused OEM seats. (T-50 Torx)

Havis, Inc.
75 Jacksonville Road
Warminster, PA 18974
T 800-524-9900 F 215-957-0729

www.havis.com

Locate the three harnesses for the rear seat belts.

Note: Driver side rear seat belt sensor wire will be plugged in when seat is reinstalled.

Simply wire tie the removed seat belts to the side of OEM cross brace and plug harnesses back in.

Remove rear floor sections and forward foam block from back of SUV.

A T-55 Torx socket is needed for the forward bolts.

Remove passenger sill plate.

This will not be reused.

Use OEM seat bolts to attach K9 kit front floor bracket to OEM seat mount locations.

Use OEM nuts to attach K9 kit middle floor support bracket to OEM cross brace.

Attach rear floor bracket using previously removed T-55 Torx bolts.

Note: Run wiring for dome light, rear fan and other equipment prior to installing floor.

Place floor into rear of SUV and loosely attach to front and middle floor brackets using 1/4" x 3/4" Phillips pan head screws and flat washers.

Place rear angled floor section into vehicle and loosely attach to forward floor, and rear bracket using 1/4" x 3/4" Phillips pan head screws and flat washers.

Prior to front bulkhead installation, remove OEM "B" pillar grab handles. Attach upper front bulkhead "L" brackets to "B" pillar with OEM grab handle screws. (Longer bracket goes on top with "L" flange facing out) Do the same for both sides.

Place K9 front bulkhead into vehicle. Take care not to scratch floor when sliding bulkhead into position.

Loosely attach K9 front bulkhead to "B" pillar brackets with 1/4 x 3/4 carriage bolts and serrated flange nuts. Bracket goes on inside of bulkhead flange.

Place rear bulkhead into vehicle and line up to rear floor section.

Attach rear bulkhead to rear floor bracket using (3) 1/4" x 3/4" carriage bolts and serrated nuts. Note: Rear bulkhead no longer has removable rear guard.

Also attach rear bulkhead to rear floor bracket outboard holes using (2) 5/16" x 1.25" bolts, washers, and nuts.

Place divider wall into vehicle and line up to passenger side front and rear bulkhead.

Attach divider to bulkheads using 1/4" x 3/4" carriage bolts, Phillips bolts, and washers.

Warminster, PA 18974 T800-524-9900 F215-957-0729 www.havis.com

Havis, Inc. 75 Jacksonville Road

Place ceiling on top of front and rear bulkheads. Loosely attach ceiling to rear bulkhead with 1/4" x 3/4" pan head Phillips bolts and flat washers.

Attach K9 side wall to kit and using 1/4" x 3/4" pan head Phillips bolts and flat washers.

Attach K9 lower filler into kit using 1/4" x 3/4" pan head Phillips bolts and flat washers.

Attach K9 upper rear filler to kit using 1/4" x 3/4" pan head Phillips bolts and flat washers.

Attach K9 upper trim into kit using 1/4" x 3/4" pan head Phillips bolts and flat washers.

Place the prisoner partition into vehicle and attach using 1/4" x 3/4" carriage bolts and serrated nuts.

Attach partition to previously installed "B" pillar brackets using 1/4" x 3/4" carriage bolts and serrated nuts.

Havis, Inc. 75 Jacksonville Road Warminster, PA 18974 T800-524-9900 F215-957-0729 www.havis.com

Attach upper trim panel to center divider and front bulkhead using (3) 1/4" x 3/4" carriage bolts and serrated nuts.

Attach lower support bracket to OEM hole in driver seat base and to bulkhead using (2) 1/4" x 3/4" carriage bolts and nuts.

Attach lower filler to divider using 1/4" x 3/4" pan head Phillips bolts and washers.

Attach lower divider filler support bracket using (2) 1/4" x 3/4" Phillips head bolts and washers.

Re-install seat with OEM hardware and torque to manufacturers specifications.

Note: Make sure to plug seat belt sensor wire back into harness.

Install lower filler behind rear seat using (3) 1/4" x 3/4" pan head Phillips bolts and washers.

Note: Add optional K9-A-111 Cencom bracket before installing filler.

Attach passenger side electrical access cover to K9 floor using 1/4" x 3/4" Phillips pan head screws and flat washers.

Check and tighten all hardware where previously left loose.

Install center emergency exit pass through door by placing on bottom support and securing at top studs using (2) 1/4" knobs.

Confirm smooth slide and lock functionality of front egress door.

Neatly silicone / caulk the lower seams to shed water out of vehicle.

Let silicone dry overnight prior to installing rubber mat

Example front bulkhead mounting location for the optional air circulation fan.

K9-A-102

Driver side window guard with optional 10" fan mount kit shown.

Fan and window mount kit part number **K9-A-104****Kit includes K9-A-301 fan and WGI007335 mount with hardware**

K9-A-104 also works on Passenger side window guard

Installation is now complete.
