(1x) Power Supply

## 1. Route cable and install stand with glue pad

- Determine stand position

- Clean mounting surface and bottom surface of stand using provided alcohol whip

- Peel off backing paper from glue pad and adhere to bottom of stand

- Peel off backing paper from glue pad and adhere stand to surface by firmly pressing on stand
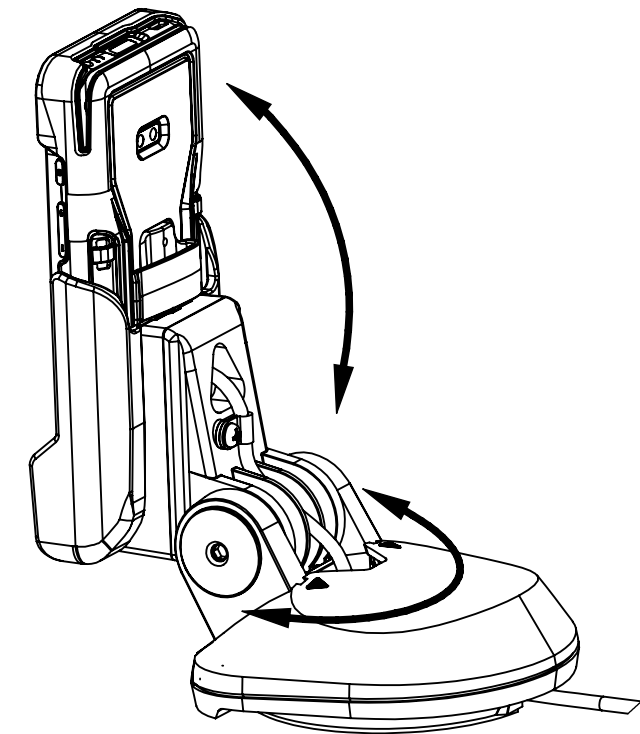

CLEAN

CLEAN

2. Install cover

- Place cover on stand and push forward on both sides using light downward force

- To remove cover, press down lightly on arrows and pull back

3. Verify and adjust

- Fully rotate and pitch payment stand through entire range of movements and verify cable is not stressed at any point

- If additional (or less) pitch tension is required, use the provided 3/16" hex key to adjust
